**Physician Groups in California Chart 2013 Path for Patient-Centric
Healthcare and Welcome New Board Members**

Los Angeles, Calif. – [The California Association of Physician Groups](#) (CAPG) announced today the election of 14 new members to its Board of Directors as part of its continuing charter to transform healthcare into systems that are team based, coordinated and accountable to patients.

“Physician groups in California are driven to transform the way patients experience the healthcare system,” said Donald H. Crane, president and CEO of CAPG. “Federal health reform was built on the delivery model originated by California physician groups and our current strategic plan is laser-focused on ensuring continued evolution of healthcare toward better coordination of care and better accountability for how dollars are spent.”

“Patients expect and deserve seamless, high-quality and high-value care. Our newest board members have demonstrated a passion to help achieve this goal on behalf of the patients they care for and the communities they serve,” said Crane.

The new board members include:
