About CAPG

CAPG is the nation's largest professional association, representing physician organizations that are dedicated to providing accountable, clinically integrated health services. Long before health reform became law, physician groups in California were demonstrating how to improve patient health outcomes and control costs through a coordinated approach to care. This commitment to quality and effectiveness is what defines and distinguishes the more than 160 leading multi-specialty physician groups that make up CAPG's membership. Over half the care delivered in California is provided by the 60,000 physicians affiliated with CAPG members. www.capg.org
