

Please Note

This abbreviated drug guide is intended to assist prescribers in the selection of cost-effective drug therapy. Medications available as generics are listed in bold and highlighted in yellow. Multi-source drugs are highlighted in green. Some covered medications may require prior authorization before they will be covered by the plan. Consider using over-the-counter (OTC) products as first-line agents when appropriate.

Table with 2 columns: Tier Level, Definition. Rows include \$0 (No Copay), I (Preferred Generic), II (Preferred Brand), III (Non-Preferred Brands and Generics), IV (Specialty Drugs), V (Specialty Drugs), G (Generic), B (Brand), PA (Prior Authorization), EST (Electronic Step Therapy), B vs. D (Quantity Limit), QL (Quantity Limit), EXCLUSION (Part D Excluded Benefit), NF (Non-Formulary).

All dosage forms of a medication are covered unless specified otherwise

Some medications may require Prior Authorization or Step therapy. Prior Authorization may be obtained by calling the following numbers.

Table with 2 columns: Plan Name, Contact Info. Rows include Blue Shield, Care1st, CareMore, Health Net, SCAN, Humana, United Healthcare Signature Value.

Injectable Medications listed on the formulary are covered under the Part D prescription drug benefit when one of the following criteria are met:

- 1. The medication is considered a "self-injectable" medication, meaning that the drug is self-administered more than 50% of the time.
2. The medication is given by IV drip or push in the home or long term care setting to a "home-bound" patient.
3. Vaccine other than pneumococcal, influenza, or Hepatitis B for patients at high or intermediate risk
4. The injectable medication is not covered under Medicare Part B for a specific diagnosis, use or place of service.
