New Board Members Reflect APG's Leadership Role in National Movement to Value-Based Care

LOS ANGELES — America's Physician Groups (APG), the leading association in the country representing physician organizations practicing capitated, coordinated care, today announced its Board of Directors for 2019-20.

Chaired by Donald Rebhun, MD, National Medical Director for DaVita HealthCare Partners Inc., the new board includes 45 of APG's over 300 member organizations.

"The growth in membership and diversity of our board is reflective of our growth as an association," said Don Crane, President and CEO of APG. "Our strength lies in the varied backgrounds and experiences each board member brings to APG."

"Every day, our members provide high-quality, comprehensive, and accountable care to the patients and communities they serve," Crane continued. "And our mission is to support them as they operate on the front lines of the movement to value. I am confident that our new board will provide the leadership we need to continue this evolution of healthcare delivery."

About America's Physician Groups

America's Physician Groups is the nation's leading professional association for accountable physician groups, composed of over 300 medical groups and independent practice associations (IPAs). America's Physician Groups' members operate under a capitated, coordinated care model that is the essence of the nation's health reform movement from volume to value. Our [Annual Conference 2019](#) will be held April 11-13, 2019 in San Diego. Learn more at www.apg.org.
