

Simplifying Healthcare

Reinventing the way healthcare organizations manage their member populations.

Episource is an end-to-end risk adjustment platform company helping clients navigate the chaos of the healthcare system with elegantly simple data, tools, and insights. We treat our clients as partners and build trust by offering full transparency into our process every step of the way.

WHO WE WORK WITH

For more than a decade, Episource has served some of the most recognizable health plans, medical groups, and IPAs across Medicare, Commercial, and Medicaid markets.

WHY IT MATTERS

Documentation gaps can result in revenue shortfalls of more than 50% vs. expected cost of care. Errors like this can be financially catastrophic for payers and result in lower quality care for their members. At Episource, we simplify the management of member programs by making them radically more efficient, increasing value to healthcare organizations and members alike.

WHAT WE DO

We provide an end-to-end platform of risk adjustment and quality solutions including consultation, analytics, medical record review, data management workflow tools, and more.

RISK ADJUSTMENT

Implementation, operations, and management of risk adjustment and quality programs.

- ✓ **RETROSPECTIVE & CONCURRENT CHART REVIEW**

Comprehensive retrieval and coding services for retrospective and concurrent risk adjustment or quality measures, with the deepest bench of full-time coders in the industry.

- ✓ **HEALTH RISK ASSESSMENTS & TELEHEALTH**

In-depth health assessments to help close documentation gaps for risk adjustment and quality programs, leading to increased member engagement and improved outcomes—in any setting.

ANALYTICS

Cutting-edge suite of risk-adjustment tools leveraging sophisticated analytics to drive insights.

- ✓ **EPIANALYST**

Risk-adjustment analytics workflow platform that transforms data into actionable campaigns, improving RAF accuracy and quality of care.

- ✓ **ACO & DCE TOOLKIT**

A comprehensive risk-adjustment program that transforms complex CCLF data into timely solutions for greater savings and improved outcomes for patients and populations alike.

SUBMISSIONS

One-stop shop for encounter data error management, reconciliation, and financial analytics.

- ✓ **EPIENCOUNTER**

Encounter, submissions, error management, and financial analytics platform that ensures accurate, complete, and compliant encounter data submissions.
